

PRODUCT DATA SHEET

DUAL ACTION (POWDER)

DESCRIPTION:

Dual Action is a unique and adaptable bacteria blend designed to function effectively and efficiently in low oxygen environments. The flexibility designed into this product makes it suitable for both aerobic and anaerobic environments.

CHARACTERISTICS:

Bacterial Type:	Blend of facultative bacteria
Total Bacterial Count:	5.2 Billion cfu's per gram
Odour:	Mild-earthy
Effective PH. Range:	5.0 - 9.5
Effective Temperature Range:	5 - 50°C
Shelf Life:	24 Months

APPLICATIONS:

Wastewater plants	Bioremediation
Activated sludge plants	Oxidation ditches

BENEFITS:

Wide application	Odour reduction
Decreases bottom sludge volume	Improves suspended solids settling
